

# Marc Anthony, Do You Believe In Loneliness

I used to try  
To set aside  
Some Time for being lonely

So many times  
I prayed to find  
Someone like you to hold me

All I know is that when I think of you  
I'm not alone  
I just simply close me eyes  
And sing my song  
And I am home  
Loving where I belong

[Chrous:]  
Do you believe in loneliness  
I do now that's where I found you and I'll never let you go  
When all I knew was onliness  
There you were  
With you around  
Who's lonely now

I feared the night  
But now it's mine  
'Cause something's out there for me

Let's take our time  
I'm satisfied  
With having you to own me

All I know is that when I think of you I'm not alone  
I just simply close my eyes  
And sing my song  
And I am home  
Loving where I belong

[Repeat Chorus]
