

Marc Anthony, I Reach For You

Baby love

Sometimes it's hard for me to tell you what I'm thinking of

So I try to find a way that I can show you love

What you mean to me

It's not enough to give you everything that you were ever dreaming of

I could never find a way that I could pay you love

For all the things you do

'Cause when my life gets crazy

The only one who comforts me is you

[Chorus:]

When I'm feeling all alone

When I'm searching for someone I can run to

I reach for you

When I need a hand to hold

Or a place where I can feel what love can do

I reach for you

Needing you

Is something that I've really gotten used to

I can't imagine being here with no one else

No one but you

What I found

Is it doesn't get much better than when you're around

Having you is all I really need when I get down

You pull me through

'Cause when my life

Gets crazy

The only one who comforts me is you

[Repeat Chorus]
