

Marc Anthony, Tragedy

Time after time
You turn on what I thought was good
And leave me behind
You should have loved me like you know that you could

But oh- no this won't be no hard goodbye
Oh- no you can't hurt me this time

[Chorus:]
She doesn't love- On my lord
It doesn't mean it's a tragedy, tragedy
She doesn't mean it - say that she don't
This doesn't have to be a tragedy, tragedy

All of my life
I was searching for the love that we had
Without knowing why
You turned around and treat me so bad

But oh- no I'll just hold my tears inside
oh- no maybe you'll find another lover who will cry

[Repeat Chorus]

On the phone for hours
But we had very little conversation
We spoke of words with no meaning
We spoke of love with no end
I'll tell myself again

[Repeat Chorus]
