

# Margaret, Get away

I caught a silence with February  
Single breath seems heavy year  
I hope you'll take the fourth step  
We both know we're only two cigarettes from the end

I wonder what's on your mind  
Standing with a straight smile  
But please don't say you were  
We both know we're only two cigarettes from the end

Today I'm waking up so tired of dreamin'  
There's nothing left to us that I'm believing  
Finally I've realized  
That it's time to get away  
Get away

So now I know it's lots to complicated  
And now I know we're too intoxicated  
Finally I've realized  
That it's time to get away  
Get away

This like the walls  
I closed in  
Crushing off that we have been  
And this warms so cold when  
We both know we're only two cigarettes from the end

I never knew it's suddenly  
The small keep us a bittersweet  
A fake it's stand with disappear  
Now we're just ashes that we go away

Today I'm waking up so tired of dreamin'  
There's nothing left to us that I'm believing  
Finally I've realized  
That it's time to get away  
Get away

So now I know it's lots to complicated  
And now I know we're too intoxicated  
Finally I've realized  
That it's time to get away  
Get away

Get away

Today I'm waking up so tired of dreamin'  
There's nothing left to us that I'm believing  
Finally I've realized  
That it's time to get away  
Get away

So now I know it's lots to complicated  
And now I know we're too intoxicated  
Finally I've realized  
That it's time to get away  
Get away

That it's time to get away  
Get away
