

# Margaret, What You Do

I, I've been looking for a while  
Been searching for a sign  
Enjoying to ignite

I, I've been chassseing highs and lows  
But don't know where to go  
It's could be a bumpy ride

When you feel other way  
What you do?  
What you do?  
Fade away  
Hate to say  
So what you do?  
What you do?

Raise it up lighter, lighter  
Dare it up higher, higher  
When you feel other way  
What you do?  
What you do?

(What you do?  
What you do?)  
What you do?  
What you do?  
(What you do?  
What you do?)

You, you don't wanna be alone  
Hiding in a safety zone  
Tell my what is on your mind

When your head is in the clouds  
Watch you hang out  
And be proud  
So come one and light the stars

When you feel other way  
What you do?  
What you do?  
Fade away  
Hate to say  
So what you do?  
What you do?

Raise it up lighter, lighter  
Dare it up higher, higher  
When you feel other way  
What you do?  
What you do?

(What you do?  
What you do?)  
What you do?  
What you do?  
(What you do?  
What you do?)

Look at me  
Look at me  
I want for you make your dreams  
If you wanna it, you take it  
.. how the lullaby singin': Aaaa !

When you feel other way  
What you do?  
What you do?  
Fade away  
Hate to say  
So what you do?  
What you do?

Raise it up lighter, lighter  
Dare it up higher, higher  
When you feel other way  
What you do?  
What you do?

What you do?  
What you do?
