

Maria Sadowska, Time 4 Love

Step into my world
It has to be now or never
Open your eyes
We ain't gonna live forever

It's not easy to make choice
When you keep your eyes wide closed
Look at me and let it be
'Cause now it's time for love

(Look at me and let it be)
('Cause now it's time for love)
(Look at me and let it be)
('Cause now it's time)

Follow my music
The travel has just begun
Travel through feelings
Colours and sounds and time

I will sing this road for you
Something old and something new
Follow me and let it be
'Cause now it's time for love

Time for love

(Follow me and let it be)
('Cause now it's time for love)

It's time for love
(Follow me and let it be)
('Cause now it's time for love)
It's time for love

It's time for love
(Follow me and let it be)
It's time for love
('Cause now it's time for love)
It's time for love

Follow me and let it be
'Cause now it's time
