

Mariah Carey, Did I Do That ?

I really hope
When you hear this song
That you're happy
With somebody new, baby because
I found a love I can call my own
And I owe it in part to you
*Mystikal*Repeat 4x*
Can't stop now, uh
We can't stop, uh
You can't stop, uh, don't try
Don't you know that you seem
Just a little crazy
Had my trust and intimacy
But you threw it away, just threw it away
And now it's all in the past
When I think of you
I just laugh
My friends must have thought I was high
To have given so much
To someone not worth my time
Chorus
Funny how sometimes
You can really lose your mind
And do things you would never do (Did I do that?)
You rhapsodize
And get caught up in the hype
'Til your senses return to you
Love plays you for a fool
You were so insecure
And your crew was so immature
Conversations, painfully weak
You were much better off
When you didn't speak
But boy to tell you the truth
It was my illusion of you
Being somehow destined for me
That had me in a daze
But we're not the same in truth
Chorus
I really hope when you hear this song
That you know it was meant for you
Though your attention span's not that long
Try to do the best you can do
*Mystikal*Repeat 4x*
Can't stop now, uh
We can't stop, uh
You can't stop, uh, don't try
*Chorus*Repeat to fade*
