

# Mariah Carey, Don't Forget About Us

[Intro:]

(Don't forget about us)  
Don't baby, don't baby, don't let it go  
No baby, no baby, no baby no  
Don't baby, don't baby, don't let it go  
My baby boy...

[Verse 1]

Just let it die  
With no goodbyes  
Details don't matter  
We both paid the price  
Tears in my eyes  
You know sometimes  
It'd be like that baby

[Bridge 1]

Now everytime I see you  
I pretend I'm fine  
When I wanna reach out to you  
But I turn and I walk and I let it ride  
Baby I must confess  
We were bigger than anything  
Remember us at our best  
And don't forget about

[Chorus]

Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes  
You still want it  
So don't forget about us

I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us

[Verse 2]

Oh they say  
That you're in a new relationship  
But we both know  
Nothing comes close to  
What we had, it perseveres  
That we both can't forget it  
How good we used to get it

[Bridge 2]

There's only one me and you  
And how we used to shine  
No matter what you go through  
We are one, that's a fact  
That you can't deny  
So baby we just can't let  
The fire pass us by  
Forever we'd both regret  
So don't forget about

[Chorus]

[Rap]

And if she's got your head all messed up now

That's the trickery  
She'll wanna have like you know how this lovin' used to be  
I bet she can't do like me  
She'll never be MC

Baby don't you, don't you forget about us

[Chorus x2]

Don't baby, don't baby, don't let it go  
No baby, no baby, no baby no  
Don't baby, don't baby, don't let it go

When it's for real, it's forever  
So don't forget about us.
