

Marillion, I Will Walk On Water

(Hogarth/Kelly/Mosley/Rothery/Trewavas)

Something is coming out of the rain, magic
It's happening again, like the last time
I don't know how it happens, but I know what to do
Coming up from the ground, I think it's you
I will walk on the water

You sent me the red sun and the purple sky
Cirrus clouds and grins
Atoms of roses
The power to do anything
In the chaos of colours
And the fluttering of wings
You carry me up
And I'm free again

Don't let anyone tell you
This is impossible
What we have here is bigger than fear

I will walk on water

Don't let anyone tell you
This is impossible
Hold on to me
Believe what you see

I will walk on water
