

# Marilyn Manson, Deformography

when you wish upon a star  
don't let yourself fall, fall in too hard  
I fell into you and I'm on my back  
an insect decaying in your little trap  
I squirm into you, now I'm in your gut  
I fell into you, now I'm in a rut  
"i lift you up like the sweetest angel,  
i'll tear you down like a whore.  
i will bury your god in my warm spit,  
you'll be deformed in your porn"  
rock star, yeah (you're such a dirty, dirty)  
rock star, yeah (dirty, dirty, dirty)  
you eat up my heart and all the little parts  
your star is so sharp  
it leaves me jagged holes  
I make myself sick just to poison you  
if I can't have you then no one will

[chorus]

you are the one i want and what i want is so unreal  
i'm such a dirty Rock star yeah...  
(i am the one you want and the one you want is so unreal)
