

# Marilyn Manson, I Dont Like Drugs [But The Drug

In space the stars are no nearer  
They just glitter like a morgue  
And I dreamed I was a spaceman  
Burned like a moth in a flame  
And our world was so fucking gone  
But I'm not attached to your world  
Nothing heals and nothing grows  
Because it's a great big white world and we are drained of our colors  
We used to love ourselves, we used to love another  
All my stiches itch  
My prescription's low, I wish you were queen just for today  
In a world so white what else could I say?  
And hell was so cold  
All the vases are so broken  
And the roses tear our hands all open  
Mother marry miscarry  
And we pray just like insects  
The world is so ugly now  
Because it's a great big white world and we are drained of our colors  
(chorus repeat)
