

# Marilyn Manson, I Hate (Demo)

You are the wind beneath my wings  
The grin across my face  
You are the fuel in my machine  
And that special place  
You are the sunshine of my life  
My first and only love  
You are the apple of my eye  
You suck my blood  
and I hate you more than life itself  
I even hate you more than I hate myself  
I hate therefore I am  
I am therefore I hate  
Another nail in my coffin  
Another thorn in my side  
Another gun to my temple  
goodbye  
and I hate you more than life itself  
I even hate you more than I hate myself  
I hate therefore I am  
I am therefore I hate  
You are the final destination  
The calm before the storm  
You are the wound within my (???)  
I died when you were born  
and I hate you more than life itself  
I even hate you more than I hate myself  
I hate you more than life itself  
I even hate you more than I hate myself  
I hate therefore I am  
I am therefore I hate  
You are the place where I find shelter  
I'm left out in the cold  
You are the "Hell" in "Helter-Skelter";
