

Marilyn Manson, WE KNOW WHERE YOU FUCK

Let's make something clear
we're all recording this as it happens
those diamond bullet storefront blood banks
splinters and stained glass
don't need to move a single prayer bone
god burns so loud and sub-low
Don't need to move a single prayer bone
our death is still life

So what's a nice place like this
doing around people like us?
/2x

We know where you fucking live /2x
We'll burn it down, burn it down
they won't even recognize your corps

the world was stripped of it's superficial surface
we don't pretend to just eat the street
the asphalt is the good meat
and we will sleep on the skin of his nightmares /2x
time to just kill this crowd
scream as fucking loud

We know where you fucking live /2x
We'll burn it down, burn it down
they won't even recognize your corps

Fire /5x
away
/4x

I love the sound of shells hitting the ground, man /2x
I love it
