

# Marissa, Hey

Someone like me  
Said something that really hurts And I need you  
Remember me  
And our memories

Cos I miss u now  
Oh I miss now  
But li know that we have got  
To just let it go

Hey, I know it's complicated  
If I'm not enough you'll have to end it  
I'd rather only one of us be alright  
Hey, I wish you stayed forever  
Can you say it's really better  
Cos I can't face that you will be with someone else

Hope, give me hope  
Let me understand  
Where I lost myself will I ever know the reason why I'm gone  
One last time  
I'd change  
I'd tell you where  
All my secrets went  
I'm lonely wish you were sorry but it's lost

Oh I miss u now  
But we know that we have got  
To just let it go
