Mark Knopfler, True Love Will Never Fade

True love will never fade True love will never fade True love will never fade True love will never fade True love will never fade

I wonder if there's no forever
No walking hand in hand
Down a yellow brick road
To never never land
These days I get to where I'm going
Make it there eventually
Follow the trail of breadcrumbs
To where I'm meant to be
To where I'm meant to be

I don't know what brought you to me That was up to you There's so many come to see me Who want their own tattoo I fixed a needle in a holder Laid my hand upon your spine And there upon your shoulder I drew the picture as your sign When I think about us I see the picture that we made The picture to remind us

True love will never fade True love will never fade True love will never fade True love will never fade

I worked the rowdies and daytrippers Now and then I think of you Any which way we're all shufflin' Forward in the queue They like to move my operation They like to get me off the pier And I dream I'm on a steamer Pullin' out of here

When I think about us I see a picture that we made The picture to remind us

True love will never fade True love will never fade
