

Maroon 5, Can't Leave You Alone (ft. Juice WRLD)

I just can't leave you alone
We keep going back and forth
Why can't you tell me how you're feeling
Why can't you admit it
I told you everything about me

Quick, give me some novocaine
It's almost like you're pulling me closer
To tell me it's over
Uhh I like the chains
I know you think that love's temporary
But please don't compare to
Anybody, nobody, anybody else now
Tell me you ain't falling
But I see you on the way down

I just can't leave you alone
We keep going back and forth
Why can't you tell me how you're feeling
Why can't you admit it
I told you everything about me

I just can't leave you alone
We keep going back and forth
Why can't you tell me how you're feeling
Why can't you admit it
I told you everything about me

So tell me something about you
Everything you've been through
Say what you got to lose
Say what you got to lose
It could be about the past
Or something brand new
What do we got to lose
What do we got to lose
Please don't compare me to
Anybody, nobody, anybody else now
Tell me you ain't falling
But I see you on the way down

I just can't leave you alone
We keep going back and forth
Why can't you tell me how you're feeling
Why can't you admit it
I told you everything about me

I just can't leave you alone
We keep going back and forth
Why can't you tell me how you're feeling
Why can't you admit it
I told you everything about me
