

# Martin Garrix, Rewind Repeat It (feat. Ed Sheeran)

Stay for the night  
Call it what you want  
And I'll compromise  
To have you in my arms  
Is this what you needed?  
Cause I'll find my faith in anything  
Don't fight the feeling  
Rewind, repeat it

If the world ends tonight  
You'll be in my arms  
We'll be frozen in time  
Underneath the stars  
My lungs are screaming  
This heart is bleeding  
I love this feeling  
So rewind, repeat it

Just close your eyes  
And all you need to see  
Is your heart and mine  
Underneath the sheets  
Don't fight your demons  
Cause they will tear you apart from the seams  
And if darkness creeps in  
Rewind, repeat it

If the world ends tonight  
You'll be in my arms  
We'll be frozen in time  
Underneath the stars  
My lungs are screaming  
This heart is bleeding  
I love this feeling  
So rewind, repeat it
