

# MARTIN ROLINSKI, Golden Rays

What we are, what we are  
We're the golden rays of summer rain

You and I where made to fly  
Into what we hold inside  
High beyond the molten sky  
I swear that we won't be denied

Let us find the hidden path  
We can find our secret room  
Far from all the hollow laugh  
That echoes only doom and gloom

Looser, fool is what their saying  
It's all a masquerade  
I won't let you down

Wooh, oooh  
What we are, what we are  
We're the golden rays of summer rain  
Wooh, oooh  
Won't be long, won't be long  
Till the golden rays of summer rain

No one can control our fate  
The world is ours lets make our move  
You're my love my soul mate  
Lets fall into a deeper grove

I will never leave your side  
Love like this is meant to be  
My hearts always open wide  
You're my truth my destiny

Looser, fool is what their saying  
It's all a masquerade  
I won't let you down

Wooh, oooh  
What we are, what we are  
We're the golden rays of summer rain  
Wooh, oooh  
Won't be long, won't be long  
Till the golden rays of summer rain

We will never let them pull us down  
We're too strong  
This is where we have to draw the line  
We shine

Wooh, oooh...
