## MARUV, Siren Song

Come to me come to me!

Come to me come to me!

Come to me come to me! you the only one!

give me love give me love from dusk till down

come to me come to me boy we can get on

give me love give me love from dusk till down

falling through the floor baby this is devil's door burning in the flame wanna know my secret bang

bang boom! bang boom! bang boom!

I'm so high love me I'm so fine love me

falling through the floor baby this is devil's door

Come to me come to me! you the only one!

give me love give me love from dusk till down

come to me come to me following my voice

give me love give me love you don't have a choice

do you know me
we will take it really slowly
falling through the floor
ask a devil's door
you gotta know me
just get the rhythm slowly
burning in the flame
wanna know my secret bang

bang boom! bang boom! bang boom!

I'm so high love me I'm so fine
