

Mary J. Blige, We Ride (I See The Future)

[Intro:]

Just can't help it
I love my hun
All that I need
And all that
I want
Said I

Just can't help it
I love my hun
All that I need
And all that I want

[1st Verse:]

Everybody asking "Why Mary ain't mad no more?"
It seems like a question that I've already answered like too many times before
Now ladies if you got a man and he treat you real good
Ain't you gon' flex every chance that you get now
Ain't you gonna love him
Just like you should
Especially when you never thought you would
Yeah

Oh you know
That I'm all into the feeling and I never look to lose it
Oh for sho'
This is consistent
With you I find a rhythm

[Hook:]

From the day to the night
We ride, we ride, we ride
Hey
How you like it, how you like it
I see the future baby
You and I
Better with time
And it is, what it is
And I just can't help it
And I felt, what I felt
No, I just can't help it
I see the future, baby
Me and you that's
How we do

[2nd Verse:]

I got a song in my heart that's all that I need
I sing it a capella, I sing it to the beat
What we are is classic
You know it
Because your attitude shows it
Now fellas if you got a girl and she treats you right
Ain't you gonna spend every dollar, every cent
Eh
Ain't you gonna make sure she stay fly
Especially when she's reppin' you for life

[Hook:]

From the day to the night
We ride, we ride, we ride
Hey
How you like it, how you like it
I see the future baby
You and I
Better with time
And it is, what it is
And I just can't help it
And I felt, what I felt
No, I just can't help it
I see the future, baby

Me and you
That's how we do
[Bridge:]
You are mine
I told you before
I wouldn't lie I need you and more
Gotta stay with you
I am safe with you
Let me repeat it in case you forgot
Love is a mountain and we're at the top
Yeah
Breath and strength
Cause I see
The future in your eyes
[Hook:]
From the day to the night
We ride, we ride, we ride
Hey
How you like it, how you like it
I see the future baby
You and I
Better with time
And it is, what it is
And I just can't help it
And I felt, what I felt
No, I just can't help it
I see the future, baby
Me and you
That's how we do
From the day to the night
We ride, we ride, we ride
Hey
How you like it, how you like it
I see the future baby
You and I
Better with time
And it is, what it is
And I just can't help it
And I felt, what I felt
No, I just can't help it
I see the future, baby
Me and you
That's how we do
Just can't help it I love my hun
(And we ride)
All that I need and all that
I want
Said I
Just can't help it
I love my hun
(And we ride)
All that I need
And all that I want
