

# Mary J. Blige, We Ride (I See The Future)&nbsp;

[Intro:]

Just can't help it  
I love my hun  
All that I need  
And all that  
I want

Said I  
Just can't help it  
I love my hun  
All that I need  
And all that I want

[1st Verse:]

Everybody asking  
&quot;Why Mary ain't mad no more?&quot;  
It seems  
Like a question  
That I've already answered  
Like too many  
Times before  
Now ladies  
If you got a man  
And he treat  
You real good  
Ain't you gon' flex  
Every chance  
That you get  
Now ain't you gonna  
Love him  
Just like you should  
Especially when you  
Never thought  
You would  
Yeah  
Oh you know  
That I'm  
All into the feeling  
And I never  
Look to lose it  
Oh for sho'  
This is consistent  
With you  
I find a rhythm

[Hook:]

From the day  
To the night  
We ride  
We ride  
We ride  
Hey  
How you  
Like it  
How you  
Like it  
I see  
The future baby  
You and I  
Better with time

And it is  
What it is  
And I  
Just can't help it  
And I felt  
What I felt  
No  
I just can't help it  
I see the future, baby  
Me and you  
That's how we do

[2nd Verse:]

I got a song  
In my heart  
That's all  
That I need  
I sing it  
A capella  
I sing it  
To the beat  
What we are  
Is classic  
You know it  
Because your  
Attitude shows it  
Now fellas  
If you got a girl  
And she treats  
You right  
Ain't you gonna spend  
Every dollar, every cent  
Eh  
Ain't you gonna make sure  
She stay fly  
Especially when  
She's reppin'  
You for life

[Hook:]

From the day  
To the night  
We ride  
We ride  
We ride  
Hey  
Now how you  
Like it  
How you  
Like it now  
I see  
The future baby  
You and I  
Better with time

And it is  
What it is  
And I  
Just can't help it  
And I felt  
What I felt  
And you know  
I just can't help it

I see the future, baby  
Me and you  
That's how we do

[Bridge:]

You are mine  
I told you before  
I wouldn't lie  
I need you  
And more  
Gotta stay  
With you  
I am safe  
With you  
Let me  
Repeat it  
In case you forgot  
Love is a mountain  
And we're  
At the top  
Yeah  
Breath and strength  
Cause I see  
The future in your eyes

[Hook:]

From the day  
To the night  
We ride  
We ride  
We ride  
How you  
Like it  
How you  
Like it, baby

I see  
The future baby  
You and I  
Better with time

And it is  
What it is  
And I  
Just can't help it  
And I felt  
What I felt  
And you know  
I just can't help it  
I see the future, baby  
Me and you  
That's how we do

From the day  
To the night  
We ride  
We ride  
We ride  
Now how you  
Like it  
How you  
Like it  
Yeah, yeah, yeah

I see  
The future baby  
You and I  
Better with time

And it is  
What it is  
And I  
Just can't help it  
And I felt  
What I felt  
And you know  
I just can't help it  
I see the future, baby  
Me and you  
That's how we do

[Outro:]

Just can't help it  
I love my hun  
(And we ride)  
All that I need  
And all that  
I want

Said I  
Just can't help it  
I love my hun  
(And we ride)  
All that I need  
And all that I want

From the day  
'Till the night  
We ride  
We ride
