

Mary Komasa, Come

Come
You wanna see how it ends
Don't think we're meant to be just friends
Can tame the fire

Come
You have the key to my door
Unlock me like you have before
The flame got higher

And then you're gone
(Safe from your arms)
I will move on
(No tear in my eye)
But until dawn
Let me play with your fire

Come
And put me out of misery
I'm waiting down on my knees
To feed your desire

So come
Absolve me from all my sins
And leave your mark on my skin
Burnt with fire

And then you're gone
(Safe from your arms)
I will move on
(No tear in my eye)
But until dawn
Let me play with your fire
