

# Mary Mary, Believer

[hook]

I'm a believer, tellin' you i really believe  
I'm a believer, even though i've never seen  
I'm a believer, look at my life and you will see  
I'm a believer, how can you not believe?  
I'm a believer, every word he says to me  
I'm a believer, cuz he gave me my liberty  
I'm a believer, now and forever i will be  
I'm a believer, how can you not believe?

[verse 1]

We got home late one night from service  
Something wasn't right, momma was nervous  
She said we're staying at your auntie's house tonight  
Cuz something in my spirit ain't right  
Just as soon as we all went to sleep  
Momma got a call from the police saying &quot;your house is on fire&quot;  
We were sad, but alive god spared our lives

[hook]

[verse 2]

On the highway minding my business  
Another car was tryna get by  
So i put my foot on the brakes and  
My car flipped upside down  
I cried, &quot;lord have mercy on me  
Take the car but save my life&quot;  
I walked away no scars, no pain, nothing broken  
So now i testify

[hook]

[bridge]

Somebody, somewhere out there is watching us, and taking care of every little thing we need, and  
People still don't believe, but i have seen too many things, tell me what will make you see that he's  
To be all you need and more  
So tell me what it is you're waiting for
