## Mastodon, All The Heavy Lifting

Lift you up again
Give you to the trees
All sound and visions are
What they ask of me
Let?s run fast through the fields
Over mountaintops
Let?s swim through ocean water
And we?ll never stop

Just close your eyes And pretend that everything?s fine Just close your eyes I?ll tell you when

Can you show me
Where to find the stream
I?ve been told before
That the water?s clean
Will you come with me
Two of us can drink
Move quick we?ve got to hurry
There?s no time to think

Just close your eyes And pretend that everything?s fine Just close your eyes I?ll tell you when

We didn?t come this far Just to turn around We didn?t come this far Just to run away

Just ahead We will hear the sound The sound that gives us A brand new day

Just close your eyes And pretend that everything?s fine Just close your eyes I?ll tell you when
