

# Matt Cooper, Taylor Swift

Young love needs a soundtrack  
Well, you and me found that  
I can turn time back with back to December  
The whole world faded  
When the radio played it  
And you gave me that first kiss so fearless  
Yeah, I still remember

Those lips, so red  
That style, that dress  
So delicate  
Now you got me singing baby now you got me singing like

You belong with me, I belong with you  
Knew it at fifteen now we're 22  
Singing Tim McGraw, cuz it's our song  
A love story made for you and me  
Filling up blank space with our wildest dreams  
When those records spin, I can't forget  
Us singing with Taylor Swift

Senior year you moved  
And we did what kids do  
But in a couple months I knew  
We had to begin again  
Forever and always  
Is feeling right these days  
All you had to do is stay  
And baby you did cuz

Those lips, so red  
That style, that dress  
So delicate  
Now you got me singing baby now you got me singing like

You belong with me, I belong with you  
Knew it at fifteen now we're 22  
Singing Tim McGraw, cuz it's our song  
A love story made for you and me  
Filling up blank space with our wildest dreams  
When those records spin, I can't forget  
Us singing with Taylor Swift
