

Matt Dusk, I Wouldn't Change A Thing

Here I go once again
Will I find the same end, or will I get it right
Will I change?
Will I make all the same old mistakes?
Or will I see the light?

Your friends said that we
Would never last that long
Well I guess your friends were wrong

Well still love kissin, well still refuse to listen
This got to be the worlds longest fling
Were still hangin in there
So very glad weve been there
Even if I could
I wouldnt change a thing

Maybe well have a fight
Thatll mess up the whole night
It can even last for days
But theyre few and theyre far
In between the next star
Making up is always great
Yes its true on paper
We dont look that strong
Well I guess the papers wrong

Well still love kissin, well still refuse to listen
This got to be the worlds longest fling
Were still hangin in there
So very glad weve been there
Even if I could
I wouldnt change a thing

Even when you steal the covers
I wouldnt change a thing
Even when Im at your mothers
I wouldnt change a thing
Even when you take me shopping
I wouldnt change a thing
Even when you wont stop talking

On a side note when I first met you
I never thought Id get to share every single thing with you
And now you make me feel brand new

Well still love kissin, well still refuse to listen
This got to be the worlds longest fling
Were still hangin in there
So very glad weve been there
Even if I could
I wouldnt change a thing
Well still love kissin, well still refuse to listen
This got to be the worlds longest fling
Were still hangin in there
So very glad weve been there
Even if I could
I wouldnt change a thing

Even when you steal the covers
I wouldnt change a thing
Even when Im at your mothers
I wouldnt change a thing
Even when you take me shopping

I wouldn't change a thing
Even when you won't stop talking
I wouldn't change a thing
