Matt Dusk, I Wouldn't Change A Thing

Here I go once again Will I find the same end, or will I get it right Will I change? Will I make all the same old mistakes? Or will I see the light?

Your friends said that we Would never last that long Well I guess your friends were wrong

Well still love kissin, well still refuse to listen This got to be the worlds longest fling Were still hangin in there So very glad weve been there Even if I could I wouldnt change a thing

Maybe well have a fight Thatll mess up the whole night It can even last for days But theyre few and theyre far In between the next star Making up is always great Yes its true on paper We dont look that strong Well I guess the papers wrong

Well still love kissin, well still refuse to listen This got to be the worlds longest fling Were still hangin in there So very glad weve been there Even if I could I wouldnt change a thing

Even when you steal the covers I wouldnt change a thing Even when Im at your mothers I wouldnt change a thing Even when you take me shopping I wouldnt change a thing Even when you wont stop talking

On a side note when I first met you I never thought Id get to share every single thing with you And now you make me feel brand new

Well still love kissin, well still refuse to listen This got to be the worlds longest fling Were still hangin in there So very glad weve been there Even if I could I wouldnt change a thing Well still love kissin, well still refuse to listen This got to be the worlds longest fling Were still hangin in there So very glad weve been there Even if I could I wouldnt change a thing

Even when you steal the covers I wouldnt change a thing Even when Im at your mothers I wouldnt change a thing Even when you take me shopping I wouldnt change a thing Even when you wont stop talking I wouldnt change a thing
