

Matt Pond PA, Full As Full

what do they always want
they're shining in your sun
but a thousand killers couldn't swallow your bitters

come out of the front end of what i've begun
full as full
speaking too fast for the thoughts it's behalf
full as full

some days aim to swallow whole
some days full as full

*now what? Another case of
eyes aside and mouth askew you know you've heard it more

humming somewhere in the back of your head
full as full
you thought you'd mistake me for someone who's dead
full as full

some days aim to swallow whole
some days full as full

*

it's filling to know their eyes are sores
it's fitting that they will know not more
get with it
you've got an endless hole
get with it
their mouths as full as full

what do they always want
they're shining in your sun
but a thousand killers couldn't swallow your bitters
