

# Matteo Bocelli, CLOSE

I don't know much about the future  
And I guess I'm ok with that  
I think as long as we're together  
We can take it good or bad  
Hey baby, what are you thinking  
Let's leave the past in the past  
All these words are true  
I'm in love with you  
It feels like heaven when I hold ya  
So I will never let you go  
And when the world's too much to shoulder  
Just keep me close, close, close, close, close  
Just keep me close, close  
Keep me close  
Just keep me  
Close and baby let your heart go  
Keep on moving with the lights  
Cause when we're old and we can't dance like this  
We'll just sway from side to side  
Hey baby, what am I thinking  
Let's leave the future in the future  
It feels like heaven when I hold ya  
So I will never let you go  
And when the world's too much to shoulder  
Just keep me close, close, close, close, close  
Just keep me close, close  
Keep me close  
It feels like heaven when I hold you  
So I will never let you go  
So when the world's too much to shoulder  
Just keep me close, close, close, close, close  
Close, close  
Keep me close  
Close, close  
Keep me close  
Close, close, close, close, close
