

MattyBRaps, Story of Our Lives

we've all been down before and need some picking up
turn a frown upside down
never touch it up
you can be yourself and be real
don't gotta cover'up
every imperfectiona nd flaw
trying to measure up

cause you're so perfect
worth it
beauty has no limit
it's what's inside
believe that you can see it
dream it, be it
I really want you to know
I want you to know

don't stop
start finish, be authentic
baby don't stop
beauty isn't on the surface
baby don't stop
life is more than being perfect
baby don't stop
let just enjoy the ride
and don't stop
