On star to find the clit, I need Onstar to find the clit  
On star to find the clit, I need Onstar to find the clit  
No shit

I pushed the On star button a long time ago  
Don't you see how late it reacted?  
She only come when, she come when she wanna  
I think her junk is dead, hope she's an organ donor  
I think I got the basis to find my way to home base  
But I'm thinking of a way if I don't see your O-face  
I want your teeth clenched, face pressed in the pillows  
I want your toes to curl like decomposing armadillos

But I hear you yawning while I'm all in your stuff,  
I want to solve the case of the mysterious muff.  
So let the curtains billow, snap the panty elastic  
Get down to it before we kick it monastic  
your body's fantastic, I like every part  
As for the parts I can't find, I don't know where to start  
There's anxiety inside of me with every performance  
So shoot me up a flare and let me know your coordinates!

On star to find the clit, I need Onstar to find the clit  
On star to find the clit, I need Onstar to find the clit  
No shit

I think were on the brink of Armageddon  
it's like Freddy shreddin' when were sweatin' cause we broke the bed in  
spelunking in your trunk when i made the descent  
I can never get you crunk, AKA your not wet  
You may not believe this "I'm no sexual genius"  
I want you screamin' "Jesus," while i'm on your moms Venus  
understand your hood and glands like the back of my hands  
am i in the ballpark or in the back of the stands  
Give me a sign, but don't give me the tap  
been around the block and seen the charts and the graphs  
and what i gather from your laughter, it's embedded in flesh  
i stir the mac n' cheese while i wheeze upon her chest  
It's time the surgeons takes my word and helps me fix my flat  
You got a lot ???  
I was so alone, and kinda' lost. I'm nowhere to be found  
It was all for not, upon the spot, until you came around.

[Skit]

Onstar: This is Hally, whats your damage?

MC: OH THANK GOD! Oh thank god! my car just hit a deer and did a triple flip into some pine trees

OnStar: Just sit tight and we'll send someone right out.
