

Me And My, If I Was Your Lover

You make me wanna feel
Things I never felt before
You make me wanna do
Things I've never done before
You make me wanna try
Things I've never tried before
You make me wanna sing
Songs I never sang before

If I was your lover
I would make love to you
Like you never thought it was true Babe,
If I was your lover
I would do you all night long
With a feeling oh so strong

Todo el mundo arriba
Todo el mundo a bajo
Todo el mundo arriba
Todo el mundo a bajo

Can make you wanna feel
Things you never felt before
Can make you wanna do
Things you've never done before
Can give you anything
Even when you beg for more
Sugar soon you will forget
All the girls you loved before me
