

# Me And That Man (Adam Nergal Darski, John Po

I crawled through the night  
That was darker than black  
I carried my sins  
Heavy weight on my back  
And I prayed to the god  
Lord, help me to be  
But the angel of light is who listens to me

And I saw the light  
And I followed its signs  
You might think that I'm blind and so out of line  
You might think that I'm lost  
'Cause my eyes can't see  
But the god from below is the one who leads me!

And he's soothing mt soul  
And he's healing my wounds  
He's a firend, not a foe  
He ain't throwing no sornes  
So i follow his light and it's set me free  
Cause Lucifer's the one who's praying for me

I crawled through the night  
That was darker than black  
I carried my sins  
Heavy weight on my back  
And I prayed to the god  
Lord help me to be  
But the angel of light is who listens to me
