

Me And That Man (Adam Nergal Darski, John Po

down by the river
i'll be shooting my soul
and digging my grave in this god damn hole
this god damn hole

please call my mother
send my warm regards
kiss me my lover
my last goodbyes
oh, my last goodbyes

deep in the night
This my last goodbye
stray away from light
they laid down my body
and they laid it down low
I rest here forsaken
in the bloody hole

on this god damn hole
away from the living
all those I've let down
my heart is still beating

this funeral drum
on this funeral drum
far away from the sun
the countdown has begun
beat my humeral drum
