

# Me & My, Crazy

Why do I keep on writing  
All these love songs  
Why cant I get you out of my head  
Everyday when I wake up  
I try to be strong  
But you got that something I cant forget  
And its driving me mad  
`Cause I know that you love me  
And I know one day you will finally see  
That we were meant to be

My baby  
Dont you know youre driving me crazy  
Cant you see that I am your lady  
My baby  
Youve been playing with my heart lately  
Im begging you to come back and save me  
My baby, my baby

Why do I keep on crying, when I know it is wrong  
Why cant I just forget what we had  
Since the day that we broke up  
I try to move on  
But you got that something I cant forget  
And its making me sad  
Cause I know that you love me  
And I know how much youre denying to see  
That we were meant to be

Now I pray every night  
To get over you  
But its just so hard  
When I know that we are not through  
We are not through
