

# MEDUZA, Tell It To My Heart (ft. Hozier)

I can work you out  
Are you thinking about something better?  
Holding on to you  
Why you drag me through the stormy weather?  
The only time you smile is in the photographs.  
And when I pull you close it's like you're holding back.  
Before we turn to strangers trying to love in the dark.

Tell it to my heart  
Cause I can't keep guessing  
If it's me you're missing  
Tell it to my heart  
It's the sounded silence  
It's the place we're dying

Tell it to my heart, heart, heart /2x

Tell it to my heart  
Cause I can't keep guessing  
If it's me you're missing  
Tell it to my heart  
It's the sounded silence  
It's the place we're dying

Before a light goes out  
Come and tell me now it's something fading  
Cause i can feel it in every single thing  
That you're not saying  
And you move close to me  
But i can feel the space  
Whatever time we had  
I am not gonna waste  
Before we turn to strangers trying to love in the dark

Tell it to my heart  
Cause I can't keep guessing  
If it's me you're missing  
Tell it to my heart  
It's the sounded silence  
It's the place we're dying

Tell it to my heart, heart, heart /2x

Tell it to my heart  
Cause I can't keep guessing  
If it's me you're missing  
Tell it to my heart  
It's the sounded silence  
It's the place we're dying
