

Meek Mill, Believe (feat. Justin Timberlake)

you know I still believe
still believe in you ans me
cause every night I to sleep,
go to sleep
I can see it like a movie in my dreams

put my face in the dirt in the ground
still I am on a race
I'ma take back the crown, yes
you can break my body
but you can't lock the soul of a man down

follow you dreams not your addictions
how we gon' follow our dreams locket in a prison?
they tried to swallow me whole
god be my witbess
deprive me outta my dreams but I am relentless
I am whit the money ain't never want attention
so I don't pay attention to comments and all the mentions

cause they aon't see my viosion
I was washin' dishes
turn my rags into riches
glad when it was Christmas

we ain't even barely your present but we was gifted
in a school of failure
we present
perfect attendance
we;fare , baby
we workin' whit thay they give us
