

Megan Nicole, Never Have I Ever

Never been a, been a wild one
Usually I'm home
Stuck on re-runs
Chinese for one, Checkin' on my phone
But my friends, they
Made me go out on the town tonight
Never thought I'd meet somebody who'd open up my eyes.

Never knew I could dance
'til I was next to you
Make me wanna take a chance
And see what we could get in to
Don't know if you'll be my man
But I like the things you do
Till you took me by the hand

Never, have I ever stayed out
Singing purple rain
Dancing on the tables boy
You bring it out of me
But it feels right
For the first time
Never have I ever fallen
Like I did tonight with you

Karaoke
A capella
And we're racing shopping carts
Tell me secrets
On the beach and
Take me swimming
In the dark
Never knew I could dance
'til I was next to you
Make me wanna take a chance
And see what we could get in to
Don't know if you'll be my man
But I like the things you do '
Till you took me by the hand

Never, have I ever stayed out
Singing purple rain
Dancing on the tables boy
You bring it out of me
But it feels right
For the first time
Never have I ever fallen
Like I did tonight with you
Tonight with you
Tonight with you
Tonight with you

Make you stop and hit the drive thru
Singing with the radio
Watch the sunrise in the rear-view
As you take me home

Never, have I ever stayed out
Singing purple rain
Dancing on the tables boy
You bring it out of me
But it feels right
For the first time
Never have I ever fallen

Like I did tonight with you

Tonight with you

Tonight with you

Tonight with you

Like I did tonight with you

Tonight with you

Tonight with you

Tonight with you

Like I did tonight with you
