

# Megan Nicole, Never Wanna Let You Go

Quit playing games don't lead me on  
Make me feel like I'm your one  
When you're gonna let me go  
Why won't you give me a chance  
To show you every side of me  
And how we were meant to be

Cause you're too scared to let me in  
And let this love begin

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be right now

I see the way you look at her  
The way you used to look at me  
Now I can finally see  
Broken hearts and broken dreams  
There will never be a you and me  
Can't find the air to breathe

Cause you're too scared to let me in  
And let this love begin

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be right now

Cause I'm falling  
Do you still care  
Cause I'm falling  
Will you be there

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be right now

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be  
Tell me how it ought to be right now
