

Melanie Flash, Halfway To Heaven

Time to breath
Take me or it's done
I waited for you're hard on me
It's only just began
Now only when you want to see
Forever saddening sign
Slowly make me live again
You make it one when you started going
When you started going (going) (going)
'Cause I'm halfway to heaven
And I wanna get close to you
Now I stay off nights
Wanna get it right
You've got one's soul to choose
'Cause I'm halfway to heaven
As I save my heart for you
When I look to the sky
I need no wings to fly
You've got one's soul to choose
Hold me close
I need you in my arms
I yearn for your tenderness
The magic of your charm
So really you must realize
Silent in your mind
Make me see right through your eyes
Show me your sign when you started going
When you started going (going) (going)
'Cause I'm halfway to heaven
And I wanna get close to you
Now I stay off nights
Wanna get it right
You've got one's soul to choose
'Cause I'm halfway to heaven
As I save my heart for you
When I look to the sky
I need no wings to fly
You've got one's soul to choose
