

# Melanie Garside, These Are

i said take love away  
oh no get well away  
and now you breathe the air away from me  
and now you take my air away from me  
these are these are these are these are these are these are these are the end  
oh lord keep what you said  
oh god look what we've made  
and now you breathe the air away from me  
and now you take my air away from me  
these are these are these are these are these are these are these are these are the end  
take the time to breathe and learn to breath and learn takes time  
take the time to breathe and learn to breath and learn takes time  
take the time to breathe and learn to breath and learn takes time  
take the time to breathe and learn to breath and learn takes time
