

Melissa Dori Dye, Say You Won't Cry

after all that you've done for me
only a fool would leave
but i'm a fool and i am leaving
i did my best to fulfill my part
i tried to love you with all my heart

say you're not gonna cry when we say good-bye
i know you'll find somebody who loves you
and when she comes along, darling you be strong
i know you'll find she'll gonna love you

after all that you've promised me
i'd be a fool to leave
but i'm a fool and yes i'm leaving
you always think you can buy my heart
but can you fill the missing part

say you're not gonna cry when we say good-bye
i know you'll find somebody who loves you
and when she comes along darlin you be strong

i know you'll find she's gonna love you

it used to feel nice to know that you love me
but i feel strange when ya try to touch me
blame on me maybe i'm confused
you're misunderstanding the way that i love you

say you're not gonna cry when we say good-bye
i know you'll find somebody who loves you
and when she comes along, darling you be strong
i know you'll find she'll gonna love you

say you're not gonna cry when we say good-bye
i know you'll find somebody who loves you
and when she comes along, darling you be strong
i know you'll find she'll gonna love you
