

Melissa Etheridge, Take My Number

Do you mind if I sit down next to you
Well I remember you from school
You seem to have a good heart
Way back then you were gonna make it big
Well it's divorce now, with a couple kids
That brings you back to these parts

Everybody stumbles, everybody hits the ground
No use running scared when those changes come around
And you don't know what might be waiting for you tonight
You really shouldn't drive, you've had too much to drink
You shouldn't be alone where all you want to do is think
So take my number, or I can take you home
We'll find a cup of coffee, we can sit all night and talk
There's a diner always open just around the block
So take my number, or I can take you home

Those dreams that were going to set us free
What did we ever know at 23 about what we really want

Everybody's got a fire that's always going to burn
No way to put it out, all we ever do is learn
And you don't know what might be waiting for you tonight
You really shouldn't drive, you've had too much to drink
You shouldn't be alone when all you want to do is think
So take my number, or I can take you home
We can find a cup of coffee, we can sit all night and talk
There's a diner always open just around the block
So take my number, or I can take you home

Take you home, take you home
Take you home, I can take you home
Do you mind if I sit down next to you
Well I remember you from school
You seem to have a real good heart

You really shouldn't drive, you've had too much to drink
You shouldn't be alone when all you want to do is think
So take my number, or I can take you home
We can find a cup of coffee, we can sit all night and talk
There's a diner always open just around the block

Take my number, or I can take you home
Take my number, or I can take you home
