

# Mell, Rideback

Squeez'n step on it hard  
Try to feel my heart beat  
High, as high as you can  
All your blood will turn to fountain water  
We're surrounded by plot in this universe  
Wash away the stain of blood with tears  
We cannot look, or they will spell on you  
Wind of fuego will lead us through  
I found the light, was real, I am united  
I found guide-in line in the raging world  
There you see, in the sky, even in this insane world  
Ride on Bak  
All we need is your sympathy  
We make the history of our own  
I dance blindly in a cage  
She was beaten to the ground  
Streets are filled with lies  
No one knows what's right and what is wrong  
So you think we are one peaceful nation  
Did you imagine this starvation?  
Why we stain the love when we need it  
We are fed up with your opinion  
Stars fall out of the sky, words turned into lies  
Drunk with power, they forced us to hate  
I sacrifice all my life. The evolution was so wrong  
he heart it yearns, for a love that's pure and true  
The place, it crumbles to the ground  
Yes I can, No I can't. I must go  
Or should I stay? I cried hard  
Is that me? But no more tears  
Yes I can, No I can't. I must go  
Or should I stay? I cried hard  
Is that me? Ready go yes!!!  
I found the light, was real, I am united  
I found guide-in line in the raging world  
There you see, in the sky, even in this insane world  
Ride on Bak  
All we need is your sympathy  
Stars fall out of the sky, words turned into lies  
Drunk with power, they forced us to hate  
I sacrifice all my life. The evolution was so wrong  
he heart it yearns, for a love that's pure and true  
The place, it crumbles to the ground  
But I want you.. see you again
