

# Melodifestivalen, Style - Stay The Night

It's getting late but I don't want you to go  
Wanna see you in the mornings afterglow  
My emotion is enough to stop the flame  
When I hold you I know you feel the same

I'm gonna make you mine  
I'm gonna set your soul on fire

Love is taking me high  
When I'm with you I'm alive, I can fly  
Let this be forever  
Stay the night  
You don't need a reason why  
All that I need I can see in your eyes  
We can make it together  
Stay the night

Just wanna hold you in my arms for one more kiss  
Stop the world, let it always be like this (like this)

I'm gonna make you mine  
I'm gonna set your soul on fire

Love is taking me high  
When I'm with you I'm alive, I can fly  
Let this be forever  
Stay the night (Stay the night)  
You don't need a reason why (Woho, woho)  
All that I need I can see in your eyes  
We can make it together  
Stay the night

Stay the night  
And I'll show you the meaning of all your dreams  
Stay the night

Love is taking me high (Love is taking me high)  
When I'm with you I'm alive, I can fly  
Let this be forever  
Stay the night (Stay the night)  
You don't need a reason why (Woho, woho)  
All that I need I can see in your eyes  
We can make it together  
Stay the night

(Stay the night)  
(Stay the night)
