

# Melody Gardot, Preacherman

... stole my prey  
And I'm singing alone

Preacherman go tell me  
Where is body lay  
Should I down by the river ...  
Left in there to die

One by one we're stumble  
One by one we've found  
If I had a solution I would fix us all  
Couse I believe in the world where we all belong  
And I so tire seeing every good men gone

Take me to that river  
Lay me by his side  
Let the water wash me and clean me, honey  
Man don't stole my pride

I've seen darkness  
Lord knows, I've seen the light  
... color ... is a different  
If you're black or white  
Couse I believe in the world where we all belong  
And I so tire seeing every good men gone
