Metallica, My World

The motherfuckers got in my head Trying to make me someone else instead

It's my world now

Mama, why's it rainin' in my room Cheer up boy clouds will move on soon Heavy fog got me lost inside Gonna sit right back and enjoy this ride

It's my world You can't have it It's my world, it's my world It's my world

I'm out of my head, out of my head Get 'em out of my head, out of my head Get 'em out

Who's in charge of my head today Dancin' devils in angels way

It's my time now

Look out motherfuckers here I come Gonna make my head my home The sons of bitches tried to take my head Tried to make me someone else instead

It's my world You can't have it It's my world, it's my world It's my world

I'm out of my head, out of my head Get 'em out of my head, out of my head Get 'em out

Not only do I not know the answer I don't even know what the question is

God it feels like it only rains on me

Not only do I not know the answer I don't even know what the question is

I'm out of my head, out of my head Get 'em out of my head, out of my head Get 'em out

Enough's enough
