

# Metallica, Too Far Gone?

I, I am desperation  
Need it so bad today  
I, I am isolation  
Static and disarray  
Need this, gotta have more  
Crawling out my skin  
Sickness, scarring returns  
Burning me again

Too far gone  
Am I too far gone  
Am I too far gone to save?  
Help me make it through the day  
No

I, I am tribulation  
Digging down to the bone  
I, I am agitation  
Never leaves me alone  
Keep on, push it along  
Don't want to feel this  
Sink in, start to believe  
That I don't exist

Too far gone  
Am I too far gone  
Am I too far gone to save?  
Help me make it through the day  
Oh

All away  
I am desperation  
All away  
I am isolation  
All away  
I am agitation  
All away

Too far gone  
Never too far gone  
I'm never too far gone to save  
I can make it through the day

Make it through the day

Just for today
