

Metro Boomin, Calling - feat. NAV, A Boogie wit a Hoodie

(Metro)

Just to save you (Ooh-oo-hoo)

(Yo) I'd give my all

Hey

(Ooh-oo-hoo)

Just to save you, I'd give all of me (Yeah)

I can hear you screamin' out, callin' me (Callin' me)

It's my fault, made you fall for me (Fall)

So to save you, I'd give my all (All)

Just to save you, I'd give all of me (All of me)

I can hear you screamin' out, callin' me (Callin' me)

It's my fault, made you fall for me (Fall for me)

So to save you, I'd give my all (All)

You fell for me, I count on you when times are tough

Instead of holdin' you down, I should lift you up

It hurts me when you start to see my flaws (My flaws)

But just to save you, I'd risk it all (All)

Short on time for you, I never have enough

When I ran into you, I didn't plan on fallin' in love

Always there to wipe your tears, I hate to see you cry

If you tell me to jump, I'll ask you, "How high?"

I know sometimes it be hard for me to tell the truth

But I go through any obstacle to get to you

I'm not materialistic, but I got a thing for you

Treat the world like my guitar, I'm pullin' strings for you

(Ooh-oo-hoo)

Just to save you, I'd give all of me (Yeah)

I can hear you screamin' out, callin' me (Callin' me)

It's my fault, made you fall for me (Fall)

So to save you, I'd give my all (All)

Just to save you, I'd give all of me (All of me)

I can hear you screamin' out, callin' me (Callin' me)

It's my fault, made you fall for me (Fall for me)

So to save you, I'd give my all (All)

Let me be your hero

You got me down, I was stuck at the bottom

Get out of here, I get you, look at my feet (I know they can't stand me)

I remember when it was diamonds

Rose gold, how your diamonds dancin'?

I pick you up in that Bentley

You know what I'm sayin'? You inside a McLaren

I'll give you, just promise

Nobody is up out of here, come call me

The way I let you come into my life

And take my heart away, it's like a Rari

Every time you look up on the charts

Now you seein' me, I hope you proud of me

Got you crossed down, Patek Philippes

Ain't no way you goin' back to college

And I swear that all the shit I've seen the wrongest

Took me out in a public party

Fuckin' with my mass, goin' solar

I won't speak to nobody, I'm sorry

And I save you, you catch me glossed up

Hold on, let me catch my breath

I'm the hero, I'm the last one left

(Ooh-oo-hoo)

Just to save you, I'd give all of me (Yeah)

I can hear you screamin' out, callin' me (Callin' me)
It's my fault, made you fall for me (Fall)
So to save you, I'd give my all (All)
Just to save you, I'd give all of me (Of me)
I can hear you screamin' out, callin' me (Callin' me)
It's my fault, made you fall for me (Fall for me)
So to save you, I'd give my all (All)

(All of me)
Oh-oh (All of me)
All the people
And all of me
(Metro)
