

# Metro Station, Tell Me What To Do

Hey, hey!  
Hey, hey!

Come on, don't feel this way  
You're going to solve this for one day  
You wanna get high and then complain?  
Girl, I only think of you always and forever, and forever

Remember when you just came out  
When everyone knew what you were all about  
You faked your death and that was fun  
But girl, I think it's just begun

You take another line  
And you feel fine, this time  
And it goes like this

Girl, alright, tell me what to do, girl  
I'm so in love, whoa  
I'm so in love with you, you, you

I'll just stop  
Right around when things get bad  
You said that and much has passed  
Come on now, this'll be real fast  
Darling, I know you need the cash  
Yeah, move like that  
Yeah, yeah, yeah, move like that

"The sky will clear," you say with ease  
You leave real fast to get relieved  
Your heart was locked  
I had the key  
Now this disease won't let us be

You take another line  
And you feel fine, this time  
And it goes like this

Girl, alright, tell me what to do, girl  
I'm so in love, whoa  
I'm so in love with you, you, you

Come on, girl, I need you (Just to try to break through)  
Everything about you (Makes me wanna leave you)  
Come on, girl, I need you (Just to try to break through)  
Everything about you (Makes me wanna leave you)

Girl, alright, tell me what to do, girl  
I'm so in love, whoa  
I'm so in love with you, you, you

Girl, alright, tell me what to do, girl  
I'm so in love, whoa  
I'm so in love with you, you, you

Everything about you makes me want to leave you
